Fair, flexible business funding

Boulevard is made up of self-care industry professionals, so we understand your business better than any bank ever will. Because we are you.

We developed Boulevard Capital to help you reinvest and unapologetically chase your dreams without the headache of traditional lending. Cut out the complicated application process and focus your energy on progress.

Why Boulevard Capital?

Fast funding on your schedule

Forget the paperwork and long wait. Boulevard delivers pre-qualified offers based on your sales history. There are no credit checks—ever. Accept as much, or as little, as you'd like whenever the time is right.

A new style of finance

No interest or late fees — just a simple capital fee added to your balance and paid over time. Pay automatically through a percentage of your daily sales, so you can get ahead on your strong days and keep steady on the slower ones.

Fairness for all

Prejudiced lending practices too often hold back female and minority-owned businesses from the growth they deserve. We focus on business performance instead of credit history, making capital more accessible to our diverse industry.

How it works

01
Choose an amount that works for you

Get a pre-qualified offer right to your email based on your Boulevard sales data. Accept as much or as little as you need within your offer amount.

02
Verify your information

Share your business and ownership information with our partner, Pipe. Don't worry — we still won't check your credit!

03
Receive your funds, fast

Receive your funds directly in your bank account in as few as 24 hours, based on your bank's deposit hold policies.

04
Pay as you get paid

Payments are made daily after your deposit hits.

FAQ

What can I use my advance for?

Use your Boulevard Capital advance to take your business to the next level. Examples include increasing headcount, expanded marketing, renovations, new products and equipment, adding a new location, and so much more.

How do you determine eligibility and offer amounts?

Offers and eligibility are based on your sales and business performance while using Boulevard Payments. Please note that to be considered for a pre-qualified offer, your business must have at least 4 months of payment processing history with Boulevard.

Is this like a loan? Are there credit checks, interest, or fees?

Boulevard Capital is built to make funding more accessible to minority-owned businesses — so it's not at all like a loan. There are absolutely no credit checks or inquiries whatsoever, and there is no compounding interest, late fees, or personal guarantees. Offers are based solely on your business performance over time. When you accept an offer, there's only a single, fixed capital fee that's added to your total balance and paid over time.

How do I get an advance through Boulevard Capital?

Based on your revenue history, processed through Boulevard, you may be eligible for a pre-qualified offer. If you're eligible, you'll receive your offer via email and can simply click the secure link within the email to accept and apply.

Boulevard Capital is invitation-only at this time. If you haven't received an offer yet, just keep processing payments with Boulevard and keep an eye out for future updates (you may not have enough transaction history yet).

Pipe Technologies Inc. is the capital provider for Boulevard Capital. Boulevard is a referral partner of Pipe Technologies Inc., but is not otherwise affiliated with Pipe Technologies Inc. or its products.
